Support & Resources :- CR

1 Redeemo Merchant Portal (Dashboard)

A. Top Navbar:

A. Top Left

I Redeemo Logo and "Redeemo Merchant Portal".

B. Top Right:

I Notification Bell: Alerts related to: CR
Please refer to point 60 in the SOW which outlines the requirement for user notifications. Moreover, the inclusion of a notification bell is a common feature in most portals, enhancing user experience by keeping them informed and engaged.

- New redeemed vouchers. :-
- Newly posted feedback or ratings.
- Business verification status changes.
- Contract expiration or renewal notifications.
- System updates or maintenance alerts.
- New feature announcements.
- Expiry alerts for vouchers.

I Profile Picture (Merchant Logo) & Merchant Name Dropdown: Top right. Dropdown includes links to Accounts, Manage Branch, and 'Log Out'. :- CR
Redeemo: It's pertinent to mention that having an Account or Settings dropdown on the homepage is a conventional practice across nearly all dashboards. The pages linked within this dropdown, as outlined, are already included in the initial SOW. It's reasonable to anticipate that these elements would be seamlessly integrated into the design as a part of standard user interface practices. Please also see point 52, login section where it states user can add images, banner amd logo prior to admin approval.

II Verified Stamp if business is verified

C. Main Content Area:

I Merchant Logo and Merchant Name

Your Redeemo Listing

D. Page Verification Status:

I Icon: A verified badge or an exclamation mark depending on the status.

II Text: "Your business page is Verified" OR "Your business page is Not Verified."

E. Profile Completion & Verification Checklist:

I Title: "Steps to Complete your Business Profile":

- Business Details: Ticked if completed. Button/link saying "Complete" if not.
- Upload Verification Documents: Ticked if completed, "Upload" if not.
- Add Main Branch: "Complete" if not yet added.
- Digital Contract: "Sign Now" if not signed.

Note: Each of the above checklist points is clickable and redirects the user to the respective page or section.

F. Overview Tiles (Top Row):

Total Vouchers Redeemed: A number display showing how many vouchers were redeemed.

Active Vouchers: Displaying how many active offers are currently in circulation. :- CR

New Customers Acquired: A count of customers who have visited and redeemed a voucher for the first time in the defined period (Month or Year). :- CR

Returning Customers: Customers who have visited more than once in the defined period (Month or Year). :- CR

Average Rating: Average Rating based on all branches :- CR

Redeemo: Please revisit point 54 under the 'Home' section in the SOW, which specifies the inclusion of information on the homepage additionally with graphical charts tailored to client preference. The specific data to be included was not predetermined at that time.

C. Graphical Insights: :- CR

Redeemo: Please revisit point 54 under the 'Home' section in the SOW, which specifies the inclusion of information on the homepage with graphical charts tailored to

I Monthly Redemption Trend: A line or bar graph showcasing voucher redemptions over daily, weekly, or monthly intervals.

II Top 5 Redeemed Vouchers: Horizontal bar chart showcasing which offers are most popular among users.

III Feedback Sentiment Analysis: Pie chart displaying feedback as Positive, Neutral, Negative (based on overall branch rating average).

IV Vouchers Redeemed Per Branch: A bar chart showing each branch and the number of vouchers redeemed there.

V New vs. Returning Customers: A pie chart or bar graph displaying the proportion of new customers to returning customers.

D. Featured Promotion Effectiveness: (if the merchant has opted for being featured) :- CR - Agreed

I Clicks on Featured Promotion: How many times their featured promotion was clicked/viewed.

II Redemptions from Featured Promotion: Voucher redemptions directly resulting from the featured promotion.

E. Quick Action Buttons (Below Graphs):

I Add New Voucher: Navigates to Voucher Management > Add New Voucher.

II Add New Branch – Redirect to add new branch button

III Update Business Info: redirect to manage branches

2 Voucher Management

A. Header: Voucher Management

I Sub-header: Manage, view, and create new vouchers for your customers. Make sure to keep vouchers updated to enhance customer engagement.

B. Primary Button:

I

[+ Create New Voucher]

When this button is clicked, a form should pop up with the following fields:

Voucher Creation Form (Pops up when "Create New Voucher" button is clicked):

I Voucher Type Selection:

I.a Dropdown menu: BOGO, Discount, Package, etc.

II Title Input:

I.b Text field for voucher title.

III Description Input:

I.c Textbox for detailed offer information.

IV Terms and Condition:

I.d Dropdown for pre-defined T&Cs.
I.e Additional textbox for "Other" to input custom T&Cs.

V Upload Voucher Image/Banner:

I.f If not uploaded, a default template image will be generated based on input or category selected.

VI Expiry Date:

I.g Date picker

VII Estimated Savings (in GBP):

I.h Numeric input field.

VIII Buttons:

I.i **Submit**: To save and send the voucher for approval.

I.j **Save Draft** – Safe Draft without sending the voucher for approval :- CR – Agreed
I.k **Cancel**: To close the form without saving.

C. Voucher Controls:

Search Voucher: A clear search bar at the top, allowing for quick searches by voucher name, ID, or any relevant keyword.

I Filter Options: User-friendly dropdowns/checklists to: CR

- **Voucher Type**: Discount, BOGO, Time-Limited, etc.
- **Date Created**: Using a date picker or range slider.
- **Expiry Date**: Another date picker or range slider.
- **Status**: Dropdown with options like Active, Inactive, Draft, Expired.

II Sort Options: Dropdown to sort by: CR

- **Newest to Oldest**
- **Highest to Lowest Estimated Savings**

Please refer to points 53 and 54 in the SOW where the filter function is outlined. Additionally, filtering and sort functions are standard features for any dashboard.

III Button - "Export Report": Allows merchants to export data on their vouchers. CR - Agreed

D. Vouchers Table:

Voucher ID	Date Created	Title	Expiry Date	Est. Savings (£)	Voucher Status	Approval Status	Type	Actions
RMV-001	01/01/2023	Free Coffee on First Visit	31/12/2023	£3	Active	Published	Mandatory	View
RCV-001	02/01/2023	Buy 1 Get 1 Burger	15/02/2023	£6	• Draft • Active • Inactive • Expired	• Pending Approval • Published • Rejected	Custom Voucher	• View • Edit • Publish • Deactivate

Voucher ID	Date Created	Title	Expiry Date	Est. Savings (£)	Voucher Status	Approval Status	Type	Actions
								• Delete

–

Actions Buttons Explained:

- **View:** Displays the full details of the voucher.
- **Edit:** Allows the merchant to modify the voucher details.
- **Publish:** Sends the voucher for admin review. Once approved, it gets live on the platform.
- **Deactivate:** Makes the voucher temporarily unavailable for customers.
- **Delete:** Removes the voucher permanently.

–

Footer Note:
Ensure that your vouchers remain relevant and up-to-date to attract more customers. For any assistance, reach out to our support team.

Note to Hyperlink: The two mandatory voucher should be presented and listed at the top of the voucher list in the same table. But merchants should not be able to edit/ delete mandatory vouches – they can only view.

Voucher ID –

- mandatory voucher to start with RMV-001
- Custom Voucher to start with RCV-001

E. Additional Features:

I Voucher Preview: In the "Actions" column, an eye icon lets merchants preview how the voucher will appear in-app.

II Expiration Alert: A dynamic banner/notification on top that lists vouchers close to their expiry. It provides direct links to either extend or replace the offers.

3. Redeemed Vouchers

A. Page Header:

I Title: Voucher Redemption

II Button (Top Right): Export Reports –

- A dropdown menu to allow merchants to download data by day, week, month, or year in formats such as CSV, Excel, or PDF. :- CR – Agreed

B. Search Bar: Placeholder text – "Search by Customer Name, Voucher Title, or Branch".

I Filter Options: CR

II **Please refer to points 53 and 54 in the SOW where the filter function is outlined. Additionally, filtering and sort functions are standard features for any dashboard.**

- Validation Type
- Redemption Date
- Voucher Type
- City
- Gender
- **Branch**: Dropdown menu of all branches for easy filtering.

C. Redeemed Vouchers

Voucher Code*	Customer Name	Gender	Age	City	Voucher Title	Branch Name	Redemption Date	Validation Status	Actions
XXXX1234	John Doe	Male	28	London	20% off	Main Street Branch	10-May-2023	QR validated	Icons for View, Validate

- *For Merchant Admin: A **Direct Validation Button** labeled "Quick Validate" which can validate without QR or code.*
- *Voucher Code column is exclusive to the Merchant Admin. For Merchant Admin: **"Quick Validate"** button.*

E. Insights and Analytics Section: - Displayed as visual cards/graphs/charts, showing:

Voucher Performance Analysis: CR

I Top 5 Most Redeemed Vouchers:

- A horizontal bar graph that ranks the top 5 vouchers based on the number of redemptions. Hovering over each bar can display the exact number of redemptions.

II Monthly Redemption Volume:

- A bar graph showing the number of redemptions for each day of the month. Identify days with high redemptions and potentially correlate with marketing activities or external factors

III First-Time vs. Repeat Redemptions:

- A bar graph comparing the number of first-time redeemers vs. those who have redeemed vouchers more than once. This can provide insights into customer loyalty and voucher effectiveness.

Demographic Insights: CR

I Age Bracket Analysis:

- A pie chart that shows the age distribution of customers redeeming vouchers. For example, 18-25, 26-35, etc. This helps in understanding which age groups are more engaged.

II Gender-Based Redemption:

- A doughnut chart showing the percentage split of vouchers redeemed by gender

Geographic Insights: CR

I Redemption Heat Map:

- A map showing hotspots where vouchers are most frequently redeemed. This can be crucial for merchants with multiple locations or for understanding where their primary customer base resides.

II City-Wise Redemption Breakdown:

- A bar or column chart that ranks cities based on the number of redemptions.

Branch-Based Redemption Analysis: CR

I Branch Redemption Comparison:

a.a A horizontal bar graph comparing voucher redemptions for each branch.

II Branches with Highest Repeat Redemptions:

a.b Identifies branches fostering customer loyalty.

It is imperative to have a redeemed voucher report, as it crucially demonstrates to merchants the impact Redeemo has on their businesses. In point 58, under redeemed vouchers, this page is designed to provide merchants insights into their performance on the Redeemo platform, as outlined in the SOW regarding the details of information presentation. Although initially vaguely defined, I have elaborated and provided a more detailed breakdown of insights for merchant view. This was intended to serve as a guideline, given its absence in the initial portal rendition you provided. Moreover, some of this information is already being generated for the homepage.

F. Automated Communications – Send out automated email to customer and merchants (assigned branch email) when a voucher is redeemed.

I For Customers:

Dear [Customer Name],

Thank you for redeeming your voucher at [Merchant Name]. We hope you enjoy the benefits and look forward to serving you again! Do visit Redeemo for more exciting offers.

Best, [Merchant Name]

II To Merchants:

Hello [Merchant Admin Name],

A voucher from [Customer Name] has been redeemed today.
Details:
Voucher Title: [Voucher Title]
Voucher Code: [Voucher Code]
Estimated Savings: [£Amount]

Redemption Date & Time: [Date & Time]

Cheers, Redeemo Team

III Monthly Voucher Redemption Report to be sent to relevant branch user email. Branch Wise

Hello [Merchant Admin Name or Assigned User],

Here's your monthly voucher redemption report for [Month, Year]. You had [Number] voucher redemptions, of which [Number] have been validated.

***Link/Attachment**: Detailed report.*

Regards, Redeemo Team

G. Notifications & Alerts Panel:

I Positioned on the right side or as a slide-out panel.

II Lists alerts like vouchers nearing expiration, and unusual redemption activity.

H. Automated Monthly Redemption Reports:

I A calendar icon showing the last report sent date. Next to it, a "Request Now" button for an immediate report.

4. Manage Branch

Header:

I Title: "Your Business"

II Description: "Manage your primary business profile, oversee all branch details, and administer user accounts for all branches in one consolidated view."

1. Business Profile Section:

I Company Details: (Added in signup step AND same fileds new added)

- **Business Logo**: Upload/Change feature.
- **Business Name**: Editable field.
- **Trading Name**: Editable field.
- **Business Category**: Dropdown to select from a predefined list.
- **Business Type**: Dropdown to select from a predefined list.
- **Registered Company Number**: Editable field.
- **VAT Number**: Editable field.
- **Verification Status**: Stamp or indicator (Verified/Not Verified).
- **Digital Contract Status**: Stamp or indicator showing if the contract has been signed.

II Main Merchant Admin Contact Details: (Added in signup step)

- **Contact Name**: [Non-editable; filled with the data from sign-up]
- **Position/Job Title**: [Non-editable; filled with the data from sign-up]
- **Email Address**: [Non-editable; filled with the sign-up email]
- **Contact Number**: [Non-editable; filled with the data from sign-up]

Note: All fields display pre-filled information if provided during sign-up. Fields that were left blank during sign-up are indicated for the admin to complete.

2. Verification & Contract Section:

I Business Verification: (Added in signup step)

- **Uploaded Documents**:
    - **Document 1**: Thumbnail preview if uploaded during sign-up; upload button if empty.
    - **Document 2**: Thumbnail preview if uploaded during sign-up; upload button if empty.
- **Verification Status**: A badge or icon indicating "Verified" or "Not Verified".

II Digital Contract:

- **Contract Status**: Text or badge showing "Signed" or "Not Signed".

3. Branch Management Section:

Branches:

Branch Logo	Branch Name	Location	Contact	Assigned User	Redemption PIN	Verification Status	Actions
Logo Thumbnail	Main Branch (Default)	Address	0123456789	Admin (Default)	1234 (Click to set new pin)	Verified	View, Edit, Manage User
Logo Thumbnail	Example Branch 2	Address	0123456789	User1	5678 (Click to set new pin)	Not Verified	View, Edit, Delete, Manage User

Note: The Main Branch is set as default and always appears on top.

Actions Explained:

- **View**: Opens a detailed modal/page with branch-specific information.
- **Edit**: Opens a pop-up to update branch details.
- **Delete**: Removes the branch (not applicable for the main branch).
- **Manage User**: A pop-up interface that allows admin to manage (create, reset, update) the user account for the Redeemo merchant application specific to that branch. :- CR
- Refer to point 63 - Manage App Credentials. It's already agreed upon to assign unique users for app access, enhancing security. Given that a single business can add multiple branches under one admin account, assigning a distinct user for each branch is logical due to potential operational differences across branches. If there's an alternative solution, I'm open to discussion.

Add New Branch:

A prominent button labeled "Add New Branch" should be placed under Branch Management section. When clicked, it should open a comprehensive form/modal to input new branch details.

_

New Branch Form:

I Branch Specifics: Same fileds are new added

- **Branch Logo**: Upload button with a display area.
- **Upload Banner**: A clear button with an area that displays the uploaded banner. This banner will be used in the app and on the website.
- **Branch Name**: Editable text field.
- **Branch Address**: Editable text area.
- **Location on Map**: An interactive map area to pinpoint the branch's location. The map should also provide auto-suggestions as the address is typed in the above field.
- **Contact Number**: Editable text field.
- **Branch Email Address**: Editable text field. This will be used for sending redemption notifications.

- **Website**: Editable text field. Placeholder or auto-filled with the main website; can be changed if the branch has a different website.
- **Opening Hours**: Dropdowns or time selection tools for each day of the week.
- **About the Branch**: Editable text area to provide details or description of the branch.
- **Photo Gallery**: A section to upload multiple photos specific to the branch. Thumbnails should display uploaded images with options to view, replace, or delete.
- **Price List**: Upload button to attach the branch-specific price list.
- **Rating and Reviews**: This should be a passive field that displays customer feedback in either a graphical or statistical representation. Admins should not edit this but can view in detail.
- **Select Amenities**: Checkboxes or a dropdown list to select the amenities offered by the branch.

Actions for the Form:

- **Save & Submit:** To save changes and make the branch live on the app.
- **Save as Draft:** Save information but don't publish the branch yet.
- **Cancel:** Return without saving.

Note: The Main Branch, by default, will need to be completely filled out to ensure it's published on the app

III. User Management CR

Refer to point 63 - Manage App Credentials. It's already agreed upon to assign unique users for app access, enhancing security.

I Assigned User: CR

If there is an existing user:

- **Contact Person**: Display field showing branch contact person's name with an edit icon next to it.
- **Position/Job Title**: Display field showing position/job title with an edit icon next to it.
- **Contact Number**: Display field showing branch contact person's number with an edit icon next to it.
- **Email Address**: Display field showing email address with an edit icon next to it.
- **Password Status**: Display field indicating whether a password is set, without revealing the actual password.
- **Reset Password**: Button to initiate a password reset for the user.

If no user is currently assigned:

- **Create New User Button**: Upon clicking, it reveals the form fields:
    - **Contact Person**: Editable field for branch contact person's name.
    - **Position/Job Title**: Editable field.
    - **Contact Number**: Editable field for branch contact person's number.
    - **Email Address**: Editable field.
    - **Set Password**: Password entry field.
    - **Confirm Password**: Re-entry of the password for confirmation.
    - **Save Button**: To save any changes made.
    - **Cancel Button**: To discard changes and exit.

Redemption Management:

- **Current PIN**: Visible with the option to "Set New 4 digit pin".

1 Accounts

1. Header:

I Page Title: “Your Account”

II Notification Icon: Alerts about new campaigns or the status of featured listings.

III Help Icon: Link to FAQs or chat support for account-related queries.

2. Personal Details Section:

I Profile:

- **Profile Picture**: Thumbnail of the business logo or the account holder's image with an option to change/upload.
- **Business Name**: Editable field displaying the business's registered name.
- **Trading Name**: Editable field for the business's trading name, if any.
- **Contact Person**: Editable field showing the contact person's name.
- **Position/Job Title**: Editable field.
- **Contact Number**: Editable field showing the contact number.
- **Email Address**: Display field showing the email address with an edit icon next to it.

Change Password:

- **Current Password**: Secure entry field.
- **New Password**: Secure entry field.
- **Confirm New Password**: Secure entry field.
- **Change Password Button**: To initiate the password change.

3. Campaign & Featured Listings Section:

I Available Campaigns: CR – Agreed

- **Campaign List**: Dynamic list of campaigns that are currently available for merchants to sign up.
    - **Campaign Name**: The name of the campaign.
    - **Details**: Brief description of the campaign.
    - **Cost**: The monthly charge for the campaign.
    - **Duration**: How long the campaign lasts (e.g., 30 days).

- **Sign Up Button**: Button to opt into the campaign.

II Current Featured Listings: CR - Agreed

- **Featured List**: A list of campaigns the merchant is currently signed up for.
  - **Campaign Name**: The name of the featured listing.
  - **Start Date**: When the listing became featured.
  - **End Date**: When the listing will no longer be featured.
  - **Cost**: Monthly charge for the listing.
  - **Status**: Active/Ending soon.
  - **Cancel Button**: Option to cancel the featured listing (if possible).

4. Payment & Invoices Section: CR - Agreed

I Payment Method:

- **Displayed Card**: Last four digits of the card, expiration date.
- **Add New Card Button**: Link to add a new payment method.
- **Delete Card Button**: To remove a payment method.

II Transaction History:

III Table format displaying:

- **Date**: Date of the transaction.
- **Description**: Brief about the transaction (e.g., Featured Listing for [Campaign Name], etc.)
- **Amount**: Amount transacted.
- **Invoice Link**: Downloadable link or icon for detailed invoice.

5. Notifications & Preferences Section:

I Email Notifications:

- Toggle to turn on/off email notifications for account activities and campaign alerts.

II Newsletter Subscription:

- Toggle to subscribe/unsubscribe from newsletters or promotions.

6. Account Actions Section:

I Deactivate Account Button:

- Soft delete option, allows reactivation within a certain period.

II Permanent Delete Button:

- Warning prompt before executing this irreversible action.

7. Footer:

I Save Changes Button:

- Prominent color to save any changes made.

II Cancel Button:

- To discard changes and revert to the previous state.

8. Compliance Section:

Data Protection & Privacy:

I Personal Data Access:

- Button/link to request a report on all the personal data stored.

II Privacy Policy:

- Link to the company's privacy policy detailing how data is handled, stored, and used.

III Cookie Settings:

- Link to adjust the cookies' settings for the merchant portal.

2 Support & Resources CR

Please note that the "Support & Resources' page corresponds to the "Help and FAQ" pages as outlined in point 65. The layout, content, and structure are elaborated in the details provided in this document.

1. Header:

I Page Title:

- “Support & Resources”

II Breadcrumb Navigation:

- Home > Merchant Dashboard > Support & Resources (to help users understand and navigate their location within the portal).

2. Search Bar:

III Search Input:

- Allows users to type in and search for specific queries or keywords.

IV Placeholder Text:

- "Search for guides, troubleshooting articles, and more..."

_

3. Popular Guides & FAQs:

Subtitle: "Get started with these commonly referred guides."

V List of guides with icons to visually represent each topic (e.g., Setting Up Your Business Profile, Redeeming Vouchers, Understanding Compliance, etc.).

VI Toggle or dropdown functionality for FAQs, displaying the most commonly asked questions first. Clicking on a question expands the answer.

_

4. Troubleshooting:

Subtitle: "Experiencing issues? Let's resolve them."

VII Categorized tabs or buttons for common troubleshooting categories such as "Account Issues," "Payment Discrepancies," "Voucher Management," and more.

VIII Each section has a list of problems with clickable links that lead to step-by-step solutions, possibly with supporting images or videos.

_

5. Resource Library:

Subtitle: "Dive deeper with detailed guides, videos, and more."

IX Guides & Manuals:

Downloadable PDFs or viewable online guides about various portal functionalities.

X Tutorial Videos:

- Thumbnails of videos merchants can watch. Topics might include "Navigating the Dashboard," "Managing Branches," and "Understanding Campaign Analytics."

XI Templates & Assets:

- Branding assets, voucher templates, or any other resources merchants might need to maintain their brand consistency on the platform.

_

6. Live Chat & Support Contact:

Subtitle: “Need direct assistance? We're here to help.”

XII Live Chat:

- An integrated chat widget or link to initiate a live chat with a support representative.

XIII Email Support:

- Display the support email and estimated response time.

XIV Phone Support:

- List the helpline number and operation hours.

_

7. Feedback & Suggestions:

Subtitle: “Help us improve your experience.”

XV Feedback Form:

- A form allowing merchants to provide feedback about the portal, their experience, or any features they'd like to see.

XVI Feature Request:

- An option for merchants to suggest new features or enhancements they'd like to see in the portal.

_

8. Community Forum:

Subtitle: “Join discussions, share experiences, and learn from peers.”

XVII Browse Topics:

- Categories like “Best Practices,” “Promotion Ideas,” “Technical Queries,” etc.

XVIII Start a Discussion:

- Button/link for merchants to start a new thread or discussion.

_

9. Footer:

- **Links**: Direct links to other vital pages, like Privacy Policy, Terms of Service, Compliance, etc.
- **Back to Dashboard Button**: A clear and distinct button allowing merchants to return to their main dashboard.
